# RioVision

bridge to the future

As we approach 2018, our excitement is high. New projects will be identified, started and new volunteers will step forward. Before we close the annals on RioVision 2017, we want to thank the following citizens who have volunteered hours of work in support of RioVision projects in 2016 & 2017. Without their dedication many projects would not have been possible or completed in a timely manner. If anyone has gone unrecognized and not included on this list, please accept our apologies... so many projects, so many people, so little time.....
